**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-26, and 33, drawn to a soil measuring method, apparatus or recording medium.

Group II, claim(s) 27-32, drawn to an application (i.e. soil additives, substances, fertilizer) amount control device, method or recording medium for soil.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups II indicates either additional or different inventive concepts, e.g., the control of the application of substances to soil.

3. A telephone call was not made to request an oral election to the above restriction requirement because the requirement is complex and/or the Examiner knows from past experience that an election will not be made by telephone. See MPEP 812.01.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2857

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

**Note:** Applicant is encouraged to correct the multiple dependent claims. See e.g. claims 13-15, etc. See MPEP § 608.01(n).
